Subject: Many Thanks from USGBC

U.S. GREEN BUILDING COUNCIL

Thank You

Dear Rex,

We wanted to take this opportunity to thank Nortex Modular Space for being a USGBC member since 07/27/2009, and to thank you particularly for a year-and-a-half serving as your organization's primary contact. Your engagement has been extremely valuable in helping us work toward our shared goal of transforming the way buildings and communities are designed, built and operated.

We hope that you and your associates have discovered the many benefits of membership at www.usgbc.org/membersonly. Your involvement allows us to continue moving forward and making a difference in our local, national, and global communities.

- You drive the evolution of LEED, from the [Building Performance Partnership](#), a research-driven commitment to the ongoing performance of LEED buildings throughout their lives, to the ongoing [development of the LEED rating systems](#).
- You are maximizing the global potential of the green building movement, making LEED and green building projects and education a reality in countries around the world through the [LEED International Program](#).
- You foster a strong triple bottom line, including critical social equity efforts like [Project Haiti](#), to build a LEED-certified orphanage in Haiti, and the [Center for Green Schools at USGBC](#), which is working toward a vision of green schools for every student within this generation.
- You are at the center of the green building community, which is growing tremendously, as evidenced by the 28,193 attendees at [Greenbuild 2010](#).

Please feel free to contact us if there is any way that we can help you get more out of your membership. Thank you again for all of your support.

Sincerely,

A handwritten signature in black ink that reads "Richard Graves".

Richard Graves
Senior Vice President of Community
U.S. Green Building Council
